## Great tastes from destinations near and far

Discovery Foods was founded in the late 1980's by a well-traveled entrepreneur and passionate foodie, James Beaton. His philosophy was to deliver excellent products and service to all customers and suppliers. In 2009 Discovery Foods was acquired by the Swedish company Santa Maria and is now called Santa Maria UK.

Our curiosity and passion for good food has helped us to explore new tastes and irresistible flavours from all around the world. The company's cornerstones are product development and quality. We take care to constantly provide the best in spices and exciting seasonings from around the world, from the raw ingredients to the kitchens of home cooks. We never stop travelling, collecting ideas and inspiration and cultivating our knowledge of spices. Which allows us to have product development and quality at its core.
